DriveMAX
*a fast, inexpensive and accurate measurement tool for network coverage
leading to efficient optimization of WiMAX networks*

Software Download Procedure

Thank you for purchasing DriveMAX!

In order to download the DriveMAX software the next major steps need to be completed:

1. Purchase Order is received and product is shipped.
2. Registration with AlphiMAX web-page.
    a. Please point your browser to http://www.alphimax.com
    b. Select 'Create an account' from the login form.
    c. Fill in your Name, username and e-mail address and submit register.
    d. The web page will send you registration confirmation e-mail with activation link.
    e. Click on the activation link to activate your account.
3. AlphiMAX verifies your purchase and enables you access to the DriveMAX download section. Allow 48 hours from registration.
4. Connect to AlphiMAX's web page at http://www.alphimax.com
5. Type in the username and password you selected during the registration process in the Login Form and press "Login".
6. Navigate to the Download section and select the "DriveMAX" product.
7. At this stage you should be able to see "**DriveMAX - Software Download**" folder and download the latest DriveMAX version, user guide and other relevant documentation and updates.
8. Download the DriveMAX User Guide and follow the Installation and Configuration instructions.

In case you have reached section 7 and you do not see "**DriveMAX - Software Download**" folder, this means that AlphiMAX has not being able to verify your purchase order yet. In case the situation has not being resolved within 48 hours you may contact support@alphimax.com .

Thank you.
